

Martin Hasselblatt, M.D.
Institute of Neuropathology, University Hospital Münster
Pottkamp 2
48155 Münster, Germany

Martin Hasselblatt, M.D., is a senior neuropathologist with a special interest in malignant rhabdoid tumors. He acts as reference neuropathologist for the European Rhabdoid Tumor Registry EU-RHAB and receives a large number of international consult cases. Prof. Hasselblatt has over 20 years of experience in surgical and molecular neuropathology. He has a track record of papers defining the neuropathology of pediatric brain tumors, but also contributed to a better understanding of the biology of these tumors using patient samples as well as cell culture and *Drosophila* model systems. His research is supported by Deutsche Forschungsgemeinschaft and IZKF Münster.
